### **Opportunity**

We have an exciting and rewarding opportunity for you to take your software engineering career to the next level.

As a Software Engineer at Oware Technologies, you serve as a seasoned member of an agile team to design and deliver supply-chain products in a secure, stable, and scalable way. You are responsible for carrying out critical technology solutions across multiple technical areas within various business functions to support the organization's business objectives.

### **Job Responsibilities**

- Executes software solutions, design, development, and technical troubleshooting with the ability to think beyond routine or conventional approaches to build solutions or break down technical problems
- Writes clean and high-quality production code
- Proactively identifies hidden problems and patterns in data and uses these insights to drive improvements to coding hygiene and system architecture
- Collaborate with cross-functional teams to ensure the quality of software solutions.
- Adds to the team culture of diversity, equity, inclusion, and respect
- Participate in code reviews and contribute to the development of coding standards.

### **Required Qualifications, Skills, and Capabilities**

- A bachelor's degree in computer science or a related field
- Write well-designed, testable, and efficient code using programming languages such as Javascript, Java, Python, C++, Ruby, and others.
- Familiarity with modern front-end technologies like React JS, Vue JS, Angular, and others
- Experience with NoSQL and Relational Databases, such as MongoDB, DynamoDB, MySQL, or PostgreSQL.
- Exposure to cloud technologies
- Strong understanding of network protocols, security, and distributed systems
- Excellent communication and collaboration skills

**We believe that you are all, or some, of the following:**

- Quick-learner

- Problem-solver
- Team player
- Constantly curious
- Eager to learn

**Benefits**

- Competitive salary and benefits package
- Hybrid work model
- Opportunities for growth and career advancement
- A dynamic, fast-paced work environment
- Collaborative and supportive team culture

*Oware Technologies is proud to be an equal opportunities employer. Employees and contractors, as well as prospective employees and contractors, will all be treated equally and fairly.*
