

About CarFirst:

CarFirst is transforming the way cars are traded in Pakistan with a network across the country and aspirations to expand geographic footprint locally and internationally. CarFirst is a very well-funded organization. We are in operation since 2016 and have been able to raise two of the largest VC investment rounds from some of the most prestigious investors from across the world.

About the Program

The **CarFirst Apprenticeship Program** is an 8-week training program for mechanical engineering students who have a keen interest in the automobile industry. The program will focus on developing core business skills and participants will be taught mechanical and electrical aspects of cars and will receive theoretical and practical training in all things related to cars. The best performing apprentices will also be offered a permanent job offer at CarFirst. The apprentices will be taught under the direct supervision of CarFirst's Commercial Head.

The successful apprentices will be offered the role of Vehicle Diagnostic Engineers (VDE) and will be based in our purchase centers around the country. The responsibilities of a Vehicle Diagnostic Engineer includes:

- Provision of hassle free quality inspection services on all purchase centers.
- Support of purchase team during inspection on centers by inspecting the car mechanically, physically and technically.
- Provision of outdoor inspection service for corporate fleets purchase upon a request from national purchase lead of corporate.

Who are we looking for:

- Mechanical Engineering Background with majors in automotive and 0- 6 months of experience in relevant field (preferable)
- Someone who is passionate about cars
- Interest in market dynamics along with business sense
- Confident and outspoken
- Interest in understanding E-commerce Ventures
- Attention to detail and ability to multitask

What do we offer:

- A unique experience in an entrepreneurial, yet structured environment under direct supervision of the CEO.
- The opportunity to become part of a highly professional and dynamic team working on the best practices from around the world
- An unparalleled personal and professional growth as our longer-term objective is to train the next generation of leaders for our future internet ventures
- Local and international exposure with our partner ventures and global offices
- This internship will be of **8 weeks** and will lead to a permanent job role in Inspection department depending on candidate's performance.

Location: Lahore
