

Fauji Fertilizer Company Limited (FFCL) is a leading fertilizer manufacturer with major market share in the country. In order to maintain dynamism and quality, we continue to offer excellent career opportunities through engagement of aspiring young graduates in engineering disciplines. Your institution has been one of the major contributors for providing the industry with best talent who have excelled in their respective fields. We have a fairly good representation of competent and dynamic engineers hailing from your institution who remain our most valued and talented workforce.

We will initiate our hiring process for the year 2020 through advertisement in print and social media (Facebook/ LinkedIn) in 1st week of December 2019 along with necessary details on our Career Portal ie [http:// careers.ffc.com.pk](http://careers.ffc.com.pk). However, in order to maintain a personal and one to one communication with the aspiring students who are likely to graduate by 30th August 2020 and keen to seek challenging assignment with FFC, we seek your assistance for our visit to your esteemed institution on **19 December 2019 from 1000 hrs to 1800 hrs**. Primarily to educate these students about our Company/ induction criteria and also undertake walk in interviews of selected students by the university.

We will wait for your confirmation to our tentative visit schedule, whereby our team can visit your institution for an exciting interactive session with 4 to 5 best potential candidates in each discipline i.e **Mechanical, Chemical, Electrical (Power) and Instrument**, seeking assignments in manufacturing industry after graduation.
